

# Los Gatos: Growing Greener Together

## Strolling Through Spring

### At Work

#### Stroll to Work

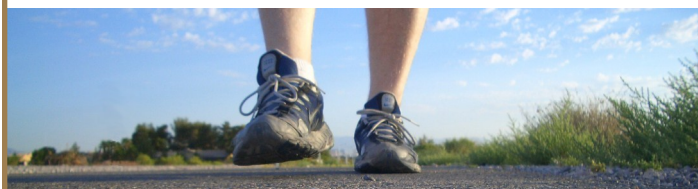

Live within a mile or two of work? Then it's time to consider walking or biking to work. If you don't live near work, try finding the nearest bus stop and take the bus to work. Reducing pollution is vital to preserving the beautiful Los Gatos environment.

#### Stroll to Lunch

Tired of sitting in your cubicle and staring at the computer? Why not walk to lunch. Support local businesses by doing what is right for the environment.

#### Stroll to a Meeting

Take some time to clear your mind. Walking to a meeting not only gives you time to reflect, but decreases unneeded pollution.

### Make A Difference

If you can't stroll, then commit to carpooling! Only 10% of Americans carpool annually, even though carpooling saves \$1.1 billion a year and 85 million gallons of gas a year.

**What You Can Do:** Commit to carpooling once a week. Whether it is carpooling to work or dropping your kids off at school, carpooling at least once a week will not only save you time and money, but is one huge step towards creating a greener lifestyle.

### At Home

#### Stroll through Downtown

Downtown Los Gatos offers a wide array of shops and restaurants to enjoy. Don't forget to bring your reusable bag for shopping.

#### Stroll the Trail

Whether walking along the Los Gatos Creek Trail or taking a stroll in one of the many town parks, there is always something active to do.

#### Stroll to School

School has started and what better way to create new habits than now. Walking or biking to school is a fun and environmentally friendly way to get to school. Visit [www.losgatosca.gov/schoolroutes](http://www.losgatosca.gov/schoolroutes) for maps of safe routes to local schools.

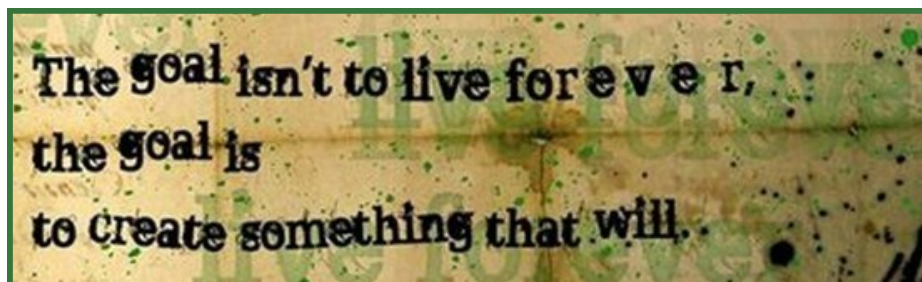

#### Stroll to the Library

Walk on down to the beautiful Los Gatos Library, rent a book, or two, or three, and enjoy this pristine green facility.
